

What Others Have to Say . . .

FROM OUR CLIENTS

"I wanted to stop by and thank you for all the times you fed, clothed, and inspired me to be better. I'm going on 3 years of sobriety, have my children back, and own my own home. If it hadn't been for this establishment, I don't know that I would have survived."

- *Kendra*

"Thank you so much for leading our family to a more stable position in life. Thank you for the food and shelter and everything in between. You have really made a difference in our lives."

- *Melissa*

"Thank you all very much for the meals and other services I've received here and the atmosphere you created for my family. I truly felt like a king!"

- *Edgar*

"I learned of your facility several months ago during one of the down periods of my life. Your staff have been absolutely wonderful and incredibly charitable and Godly to me."

- *Gale*

"I would like to say thank you on behalf of myself and children. I really believe you are angels in disguise. May you and others continue to give love and inspire hope."

- *Karen*

ABOUT THE COALITION

"I would that more people be as socially concerned about others as your organization is."

- *Jeannette*

"I am so impressed by all the programs that you have successfully developed and implemented. You have such a powerful impact in the community for those less fortunate."

- *Sherami*

"This place has a different spirit about it. You can tell that the staff consider their work as more than just a job -- that there is an important social mission to consider."

- *Scott*

"Nearly everything about The Coalition impresses me. I like the sense of mission, of dedication to that mission and the willingness to treat their patrons as significant human beings. I especially like the strong sense of community they are working from and building toward. I am impressed that this is Utah County's own community program, largely organized and funded by the local community."

- *Marden*

"The Coalition is an organization that I would characterize as a door opener. There are too many institutions that choose to be gate keepers. They're one of the few that really gets it!"

- *Jack*
